Thank you so much to everyone who organized, contributed and attended the event. Can't wait to see you again next year!

## Trail Maintenance Updates

The Trail Maintenance work crews have been very busy! Here are some of the improvements you can see along the trail as a result of their hard work.

### River and Ruin Boardwalk

An incredible 110 metre boardwalk was a key construction project that has been completed to address flooding in a well traveled section of trail. This boardwalk will allow the high number of hikers and visitors to enjoy the area as well as protect the critical natural environment along Bronte Creek. This project was made possible by a donation from ArcelorMittal Dofasco and can be enjoyed all year long.

### River and Ruin Boardwalk construction Crew April 25, 2023

### Spring Creek Bridge

The bridge and boardwalk project is nearly complete! Replacement of the old Spring Creek Bridge was made possible by a donation from the Dundas Rotary Club and a bench will be constructed soon to finalize the project.
